

BOARD CHARTER

1.0 INTRODUCTION

1.1. Purpose of Charter

The role of the board of directors (**Board**) of Bega Cheese Limited (**Bega Cheese**) is to effectively oversee the management of the Bega Cheese business, including its related Bodies corporate (**Bega Group**) for the benefit of the Bega Group shareholders and other stakeholders. The Board has adopted this Charter to outline the manner in which its role, powers and responsibilities will be exercised and discharged, having regard to principles of good corporate governance and applicable laws and regulation.

This Charter includes an overview of:

- a. Board composition, role and process;
- b. the relationship and interaction between the Board and management; and
- c. the authority delegated by the Board to Board Committees and management.

1.2. Who Does This Charter Apply to?

The Board has adopted this Charter which applies to all members of the Board and executive officers/senior management of Bega Group.

2.0 THE BOARD

2.1. Composition of the Board

The directors comprising the Board are elected by the shareholders. Directors may also be appointed by the Board to fill available positions until the next annual general meeting when they are subject to re-election by the shareholders.

The size and composition of the Board is determined by the constitution of Bega Group (**Constitution**). In particular, the Constitution requires the Board to include a minimum number of directors who are suppliers of milk to Bega Group or its related bodies corporate (**Supplier Directors**). The Board has established a Nomination, Remuneration and People & Capability Committee with responsibility for reviewing and assessing Board composition and its range of skills and experience required to carry out its roles and responsibilities effectively.

The Board will undertake appropriate checks before appointing a director or senior executive or putting someone forward as a candidate for election as a director. If shareholders are making a decision on whether or not to elect or re-elect a director, the Board will provide shareholders with all relevant information in its possession.

2.2. Assessing the Independence of Directors

In broad terms, a director will be independent if he or she is free of any interest, position, association or relationship that might influence, or reasonably be perceived to influence, in a material respect, his or her capacity to bring an independent judgement to bear on issues before the Board to act in the best interests of the entity and its security holders generally.

The Board will review the independence of each director regularly. In particular, the Board will have regard to whether the director:

- a. is a substantial shareholder of Bega Group;
- b. is, represents or is or has been within the last three years an officer or employee of, or professional adviser to, a substantial shareholder of Bega Group;

- c. has been employed in an executive role by Bega Group within the last three years between ceasing such employment and serving on the Board;
- d. receives performance-based remuneration from, or participates in an employee incentive scheme of Bega Group;
- e. has been a partner, director or senior employee of a provider of material professional services to Bega Group, within the last three years;
- f. has been in a material business relationship (e.g. as a supplier, professional adviser, consultant or customer) with Bega Group, or an officer of, or otherwise associated with, someone with such a relationship, within the last three years;
- g. has a material contractual relationship with Bega Group other than as a director;
- h. has close personal ties with any person who falls within any of the categories described above; or
- i. has been a director of Bega Group for such a period that his or her independence from management and substantial shareholders may have been compromised.

Although Supplier Directors are also suppliers of milk to Bega Group, they do so on the same terms as all other milk suppliers in the same region and Bega Group's procedures and systems ensure that milk prices are set according to the commercial interests and needs of Bega Group. However, despite this, the Board recognises that there may be a perception that the milk supply relationship between Bega Group and the Supplier Directors may influence the decision making of these Directors. Accordingly, while they are able to bring an independent judgment to bear on Board decisions, the Supplier Directors have not been characterised as independent due to this potential perception concern.

2.3. Role of the Board

The role of the Board is to provide strategic guidance to, and effective oversight of, the chief executive officer (**CEO**) and other senior management.
