

creating great food for a better future

2024-2025 MILK SUPPLY AGREEMENT

Tasmania Region

OVERVIEW OF THIS MILK SUPPLY AGREEMENT

IMPORTANT NOTICE

This overview is only a summary and does not exhaustively set out all the terms and conditions by which you will be bound if you enter into this Agreement. You should read the entire Agreement (including the Appendices and the Bega Cheese On-Farm Quality Assurance Program) carefully and seek independent legal advice if there are any parts that you do not understand. All capitalised terms in this Agreement have the meaning given in Section 8.

Basis of

• This Agreement may be used for exclusive or non-exclusive supply of Milk to us.

Supply: Exclusive or

• If you wish to supply Milk to us during the Term, you must choose whether you will supply us on an exclusive or non-exclusive basis by checking the applicable box in Item 4 of the Details.

Non-Exclusive

• It is important that you note that some provisions (including the right to receive incentive payments) are identified as only applying to Exclusive Suppliers.

Term

- This Agreement will commence on:
 - (a) 1 July 2024 for new suppliers to Bega;
 - (b) 1 September 2024* for Existing Suppliers; or
 - (c) if you are a new supplier to Bega that starts supplying us under this Agreement after 1 July 2024, the date on which we first pick-up your Milk under this Agreement.
- This Agreement will have an Expiry Date of 31 August 2025 unless it is terminated earlier in accordance with the provisions of this Agreement.
- If you wish to terminate this Agreement before the Expiry Date, you may terminate this Agreement with effect on any day during the period 1 July 2025 to 31 August 2025, provided you give us at least 30 days' prior written notice of any such termination.
- * If you are an Existing Supplier, the Milk that you supply to us during July and August 2024 will count towards the calculation of the Growth Incentive under this Agreement.

Cooling-off period

You have a 14-day cooling-off period that ends 14 days after the day this Agreement is entered
into, during which you can terminate this Agreement with immediate effect without incurring
any liability.

Monthly Minimum Pricing & Additions and Deductions

- **Item 6** of the Details sets out the Monthly Minimum Price that we will pay you for Milk supplied in accordance with this Agreement.
- During the Term, you will receive a monthly payment equal to the applicable Monthly Minimum Price (plus any applicable Step-Up) multiplied by the volume of Milk supplied by you during that month.
- If you are an Exclusive Supplier, your monthly payments may be increased by:
 - (a) the Productivity Incentive;
 - (b) the New Milk Incentive;
- The monthly payments for both Exclusive Suppliers and Non-Exclusive Suppliers will be decreased for:

- (a) Fees for Services that we supply to you;
- (b) applicable Industry Fees; and
- (c) any Quality Deductions.

Step-Ups

- · You will be eligible to receive any Step-Ups that we publicly announce and notify you of in writing.
- The amount of the Step-Up will be specified in our notice and the Step-Up will be paid on all Milk you supply during the specified period stated in the notice. A Step-Up is an additional payment and does not form part of the Monthly Minimum Price.

Step-Downs

- We will not retrospectively Step-Down the Monthly Minimum Prices during the Term.
- Only in exceptional circumstances will we consider prospective Step-Downs during the Term and this would be done in accordance with the Dairy Code.

Payment Details

- You will be paid your monthly payment on or before the 15th day of the following month. If the 15th is not a Business Day, we will pay you on the Business Day beforehand.
- We will make all payments into the bank accounts nominated by you. When you sign this Agreement, please check that you have provided correct and complete bank account details to us or included those details in our nominated banking authorisation system.

Minimum Collection Volume

- The minimum volume of milk available for collection at any one time from each Farm (before Minimum Collection Fees apply) is 1,800 litres per pickup on a "skip a day" basis.
- Should your pickup volume fall below 500 litres a collection on a "skip a day" basis for two consecutive collections or more, you may be subject to suspension and the period of suspension will continue until such time as you are able to increase production above the required 500 litres.

Quality Standards of Milk

• Section 6 and Appendix A of this Agreement set out your obligations and our requirements with respect to the quality and consistency of your Milk and your dairy operations. Section 6 and Appendix A of this Agreement also describe the actions that we may take if you fail to meet those obligations or your Milk does not meet those requirements (including where we may reject your Milk or suspend collection of your Milk).

Transferring your Farm, Assets or Herd

- Before you:
 - (a) transfer or sell any of your Farm(s), dairy land or assets;
 - (b) change your ownership structure or any other arrangement affecting the Farms' dairy land or assets; or
 - (c) cease the production of Milk at the Farm(s),

you are required to provide us with 30 days' prior written notice of the proposed change and pay all amounts you owe us under this Agreement.

Good Faith

• In accordance with the Dairy Code, both parties must always deal with each other in good faith in relation to the supply of Milk.

Disputes or Complaints	• This Agreement provides a procedure for handling disputes or complaints. The parties must try to resolve any dispute or complaint first by negotiation and then, if required, by mediation.
Understanding and Acknowledging the Agreement	 By signing this Agreement, you are confirming that you have read and understood the entire agreement, including the Appendices and attachments. If there is any aspect of this Agreement that you do not understand, please seek independent legal advice.

7. Exclusive Suppliers only: Productivity Incentive: (Section 2.4)

Productivity Incentive rates (exclusive of GST)

Productivity Incentive							
Forecasted Annual Volume (Litres)	rate (cpl)						
up to 1,000,000	0						
1,000,001 to 2,000,000	0.5						
2,000,001 to 3,000,000	1						
3,000,001 to 5,000,000	1.5						
5,000,001 to 7,000,000	2						
7,000,001 to 10,000,000	2.5						
over 10,000,001	3						

We will determine the cents per litre (cpl) rate for the Productivity Incentive applicable during a Financial Year based on your Forecasted Volume for that Financial Year in accordance with the above table. Your Productivity Incentive will then be paid monthly at that rate on the basis of your Forecasted Volume for that month. If your actual monthly volume falls below (or above)

8.	Exclusive Suppliers only: New Milk Incentive rate:	your monthly Forecasted Volume for one or more months during a Financial Year, we may apply a revised cpl rate for the remainder of that Financial Year, with your written agreement. The Productivity Incentive that may be payable for the final July and August of the Term shall be calculated at the Productivity Incentive rate applicable for the final June of the Term. The New Milk Incentive rate is \$0.82 per kg butterfat and \$1.23 per kg protein on all Milk accepted by us during each of the four relevant months over and above the New Milk Baseline. The relevant four months in each Financial Year of the Term are: May, June, July and August.

1. Milk Supply

1.1 Agreement to supply milk

You agree to supply us with Milk from the Farm(s), and we agree to buy that Milk, on the terms of this Agreement. You must elect to supply us on an exclusive or non-exclusive basis by selecting the option you want in **Item 4** of the Details. If you elect to supply us Milk exclusively, you will be referred to as an Exclusive Supplier and if you elect to supply us Milk non-exclusively, you will be referred to as a Non-Exclusive Supplier.

When you review this Agreement, it is important that you note that some provisions (including the right to receive certain incentive payments) are identified as only applying to Exclusive Suppliers.

1.2 Exclusive Supply

If you are an Exclusive Supplier, you agree to:

- (a) exclusively supply us all of the Milk produced at the Farm(s), other than Personal Use Milk; and
- (b) not supply any Milk produced at the Farm(s) to any other person or entity.

1.3 Non-Exclusive Supply

If you are a Non-Exclusive Supplier, you agree to supply us with some, but not necessarily all, of the Milk produced at your Farm(s).

1.4 Our Right to Acquire Milk

This Agreement does not limit our right to purchase milk from any other person or entity.

1.5 Term of milk supply agreement

This Agreement commences on the Commencement Date and will end on the Expiry Date, unless terminated earlier in accordance with the provisions of this Agreement (**Term**).

1.6 Cooling-off period

You may terminate this Agreement at any time within the period that ends 14 days after the day this Agreement is entered into without incurring any liability to us. If there is a Sharefarmer Supplier under this Agreement, both you and the Sharefarmer Supplier must exercise the rights under this section 1.6 acting jointly.

1.7 Special Conditions

This Agreement includes the Special Conditions, if any, set out in Appendix B. If there is any inconsistency between a Special Condition and the other provisions of this Agreement, the Special Condition will prevail.

2. Milk Pricing

2.1 Monthly Minimum Prices

During the Term, we will pay you the Monthly Minimum Prices set out in **Item 6** of the Details for Milk supplied to us, based on the Milk Solids of that Milk. If there is a Sharefarmer Supplier, payments to you and the Sharefarmer Supplier will be made in accordance with the Relevant Percentage for each.

2.2 Monthly Minimum Price Justification

Bega's Monthly Minimum Prices are determined taking into account the following critical inputs:

- financial returns from Australian and international dairy markets and price trends;
- Australian dollar exchange rates (especially against the US dollar, Yen and Euro);
- the milk production forecasts for the relevant supply region accounting for climatic and farm sustainability conditions in each region;
- competition for milk in the relevant supply region; and

 the internal product mix, customer contracts and operational efficiencies across the Bega Cheese Group.

Once determined, the Monthly Minimum Prices are then transposed into our payment system for the relevant supply region.

2.3 Permitted Deductions and Additions to monthly payments

During the Term, you will receive a monthly payment equal to the applicable Monthly Minimum Price (plus any applicable Step-Ups) multiplied by the volume of Milk supplied by you during that month.

We will deduct from your monthly payment the Fees for Services set out in section 2.6 and the Industry Fees set out in section 2.7, where applicable.

If Milk supplied under this Agreement fails to meet the Quality Standards for Grade 1 Milk, we will also make further deductions from the monthly payments made to you in accordance with section 2.8.

For Exclusive Suppliers only, any Productivity Incentive or New Milk Incentive (if applicable) will be added by us to the monthly payments made to you, in accordance with sections 2.4, 2.5 and Appendix B.

If there is a Sharefarmer Supplier under this Agreement, we will pay you and the Sharefarmer Supplier the Relevant Percentage of each monthly payment.

If there is a Sharefarmer Supplier under this Agreement, both you and the Sharefarmer Supplier must be paid under the same payment system that has been selected by you under this Agreement. If there is more than one Farm listed in **Item 1** of the Details, all Farms must be paid under the same payment system as well.

2.4 Productivity Incentive – For Exclusive Suppliers only

Exclusive Suppliers are eligible to receive a Productivity Incentive. Non-Exclusive Suppliers are not eligible to receive a Productivity Incentive.

The rates for the Productivity Incentive are set out in **Item 7** of the Details.

The rate applicable during a Financial Year will be based on your Forecasted Volume for that Financial Year. The Productivity Incentive will then be calculated and paid monthly at that rate in relation to each of the Farm(s) on an individual basis based on the Forecasted Volume for that month. Where your actual monthly Milk volume is less or more than your monthly Forecasted Volume for one or more months during a Financial Year, we may, with your written agreement, apply a revised Productivity Incentive rate for the remainder of the Financial Year if it is apparent that your anticipated actual Milk volume for the Financial Year will qualify you for a different Productivity Incentive rate band set out in Item 7 of the Details.

The Productivity Incentive that may be payable for the final July and August of the Term shall be calculated at the Productivity Incentive rate applicable for the final June of the Term.

If there is more than one Farm listed in **Item 1** of the Details, we will group all those Farms together for the purposes of calculating the Productivity Incentive, unless there is a different Sharefarmer Supplier or Sharefarmer Suppliers associated with any of the Farms in which case the Productivity Incentive will be calculated and paid on a per Farm basis.

2.5 New Milk Incentive – Exclusive Suppliers only

Exclusive Suppliers are eligible to receive a New Milk Incentive if they satisfy the requirements set out in this section. Non-Exclusive Suppliers are not entitled to a New Milk Incentive.

If you are able to increase either or both of the Milk Solids in the Milk accepted by us during any month in the Term compared to the Milk Solids accepted by us during the same month in the previous Financial Year (New Milk Baseline), you will be eligible for a new milk incentive at the rates set out in Item 8 of the Details (New Milk Incentive). The New Milk Incentive will be paid on the amount of Milk Solids in Milk which is accepted by us during each month of the Term over and above the New Milk Baseline.

If you are a new supplier to us, the New Milk Baseline applicable for the purpose of calculating the New Milk Incentive in respect of the period from 1 July 2024 to 30 June 2025 is set out in **Item 9** of the Details and is based on the evidence provided by you of your supply to your previous processor for that period. If you receive updated data from your previous processor in relation to the New Milk Baseline, we will vary the New Milk Baseline accordingly, subject to you providing us with reasonable supporting evidence.

If there is more than one Farm listed in **Item 1** of the Details, we will group all those Farms together for the purposes of calculating the New Milk Incentive, unless there is a different Sharefarmer Supplier or Sharefarmer Suppliers associated with any of the Farms in which case the New Milk Incentive will be calculated and paid on a per Farm basis.

2.6 Fees for Services

You agree that we will provide various services to you during the Term and that we will deduct Fees for Services from the monthly payments made to you.

- In particular, we may charge you Minimum Collection Fees in accordance with section 4.3 and the monthly minimum litres set out in Item 10 of the Details;
- Stop Fees and
- a Transport Surcharge.

(being the Fees for Services).

The amount of the Fees for Services applicable during the Term are set out in **Item 10** of the Details.

If you have notified us that a Farm has capacity for skip-a-day collection, but we decide to arrange collection of the Milk from that Farm on a daily basis, you will only be charged the Stop Fee as if the Milk from that Farm has been collected on a skip-a-day basis. If twice a day pickup is required by you, we will charge an additional Stop Fee as set out in **Item 10** of the Details.

2.7 Industry Fees

You are liable to pay mandatory fees imposed by Dairy Australia, State Regulatory Authorities and animal welfare levies, along with various other fees or levies imposed by law (Industry Fees). These Industry Fees vary annually. You direct us to deduct these Industry Fees from amounts otherwise payable to you under this Agreement as soon as reasonably practicable after we have been notified of these fees.

2.8 Quality Deductions and other Consequences

If you do not supply Milk that is Grade 1 Milk to us during the Term or the Dumping Policy applies, we will charge you Quality Deductions or implement other consequences in accordance with section 6 of this Agreement.

2.9 Milk Price Adjustments

(a) Step-Ups

You will be eligible to receive any Step-Ups that we publicly announce and notify you of in writing.

The amount of the Step-Up will be specified in our notice and the Step-Up will be paid on all Milk you supply during the specified period stated in the notice. A Step-Up is an additional payment and does not form part of the Monthly Minimum Price.

(b) Step-Downs

We will not retrospectively Step-Down the Monthly Minimum Prices during the Term. Only in exceptional circumstances will we consider prospective Step-Downs in Monthly Minimum Prices within the Term, and this would be done in accordance with the Dairy Code.

We will give you at least 30 days prior written notice of such a Step-Down and include all other details required by the Dairy Code.

You will have a right to terminate this Agreement within 21 days after receiving any such notice, with effect from the day the Step-Down occurs. You will also have the right to rescind any such termination before the end of those 21 days. If there is a Sharefarmer Supplier, both you and the Sharefarmer Supplier must exercise your rights under this section acting jointly.

3. Payment

3.1 Monthly Payments

We will pay you monthly during the Term.

3.2 Payment Method

We will make all payments required under this Agreement into the bank accounts that have been nominated by you or that you have included in our nominated banking authorisation system. You will be paid for a month on or before the 15th day of the following month. If the 15th is not a Business Day, we will pay you on the Business Day beforehand.

You agree that the first payment made under this Agreement will not be due and payable until after the completion of the 14 day cooling off period set out in section 1.6.

3.3 Pay Statements

We will provide you with a Pay Statement for each month. The Pay Statement will consist of:

- (a) a Recipient Created Tax Invoice for Milk supplied in the month which also details the Fees for Services and the Industry Fees for the month; and
- (b) where applicable, a Recipient Created Tax Invoice for the reimbursement of any expenses incurred by you which we have agreed to pay.

You and, if applicable, the Sharefarmer Supplier must notify us prior to the end of any month if you wish to change either of your contact details, including banking and address details to facilitate prompt payment for Milk.

4. Collection of milk

4.1 Collection Times

We will collect Milk at the location, times and in the frequencies agreed between us. Collection times are determined by factors including Milk volumes and tanker capacity. Reasonable notice will be given to you by us or our freight contractor of any changes to pick up frequencies.

4.2 Title

You warrant that you own all Milk you supply to Bega under this Agreement, and you have the right to sell the Milk free from any mortgage, charge or other security interest. Ownership of Milk supplied under this Agreement passes from you to us when the Milk enters the tanker of our freight contractor. However, you remain responsible if the Milk does not comply with the requirements of this Agreement, including (but not limited to) where your non-compliant Milk contaminates other milk.

4.3 Minimum Collection

The minimum volume of Milk available for collection at any one time from each Farm is 1,800 litres per pickup on a "skip a day" basis. If the Milk available for collection at any one time from a Farm is less than that amount and you have not met the minimum monthly supply volume set out in **Item 10** of the Details, Minimum Collection Fees will apply.

An exception to this minimum collection volume may be applied by agreement with Bega where your Milk supply is based on a seasonal supply pattern, either at the start or end of your seasonal calving season.

Should your pickup volume fall below 500 litres a collection for two consecutive collections or more, you may be subject to suspension and the period of suspension will continue until such time as you are able to increase production above the required 500 litres.

You must ensure the Milk you supply under this Agreement is refrigerated, agitated and is less than 48 hours old at the time it is due to be collected by us except where otherwise agreed in writing by the parties and upon completion of a risk assessment by Bega's authorised representatives.

4.4 Measurement of Milk Collection Volume

All Milk collected from you is measured using the industry approved flow meters fitted on the milk tanker. Flow meters are assessed through industry approved measures on a six monthly basis by our milk freight contractors for volume accuracy assurance.

4.5 Forecasted Volumes

Appendix B sets out the volume of Milk that you forecast that you will supply to us each month during the Term (Forecasted Volume).

You must use your best endeavours to ensure an even supply of Milk to us in each month.

There is no maximum volume of Milk you can supply us, but you must notify us immediately if you intend to increase or decrease the Forecasted Volume by greater than 10% and notify us again in each December and July during the Term (or 6 months intervals after the Commencement Date) of any planned increase or decrease to Forecasted Volume for the remaining period of the Term.

If you consider you will not be able to supply us with the full Forecasted Volume in any given month, you must notify us as soon as possible in writing.

4.6 **Notification to Bega of Power Outages**

If you give us reasonable notice that a Farm's dairy will suffer a power outage, we will use reasonable efforts to pick Milk up before the power outage to assist you in preventing hot Milk.

5. Supplier Obligations

5.1 General Obligations

At all times during the Term, you are required to:

- (a) comply with dairy licensing requirements and must harvest and hold Milk in an approved dairy premises and comply with the relevant State Food Authority licence conditions and regulations;
- (b) take all reasonable steps to ensure the health and safety of our staff and our contracted tanker drivers while they are on the Farm(s);
- (c) provide safe and suitable access to allow an easy entrance and exit for our contracted tankers to and from the Farm(s) and efficient collection of the Milk from the Farm(s);

- (d) comply with all applicable laws, regulations and mandatory codes, including but not limited to those in relation to work health and safety, employment and workplace relations, modern slavery, environmental management, waste management and animal welfare;
- (e) comply at all times with the Bega Cheese
 On-Farm Quality Assurance Program
 and permit reviews and audits of such
 compliance in accordance with section
 6.6(b); and
- (f) take all reasonable steps to avoid the use of GMO feeds and feed products.

A failure by you to comply with any of the above obligations may result in the suspension of this Agreement in accordance with section 6.6(c).

5.2 Insurance

You should, at your cost, purchase and maintain sufficient levels of public liability insurance to protect your business from any claims that may arise under this Agreement that would be covered by such insurance. Where you effect such insurance, you must provide us with a certificate of currency for any such policy upon request.

6. Milk Quality Standards and Milk Quantity

6.1 Quality Obligations

You must ensure the Milk supplied under this Agreement is Grade 1 Milk that meets the Quality Standards and that you comply with the Bega Cheese On-Farm Quality Assurance Program.

6.2 Self-Reporting Quality Standard Breaches and Consequences

If you suspect that Milk to be supplied under this Agreement does not meet the control limits set out in the Quality Standards, you must self-report that breach by immediately contacting us and arranging for a sample to be tested by us. If the sample tested does not amount to Milk within the control limits set out in the Quality Standards:

- (a) we will provide you with written notice of the test results and the fact that you must promptly and safely dispose of the affected Milk; and
- (b) we may reject the Milk by providing written notice to you as soon as practicable of the rejection including the reason for the rejection and any consequences, and the Dumping Policy will apply.

6.3 General Consequences of Failure to comply with Quality Standards and the Bega Cheese On-Farm Quality Assurance Program

Where you do not self-report a breach of a Quality Standard under section 6.2 and:

- (a) you do not supply Grade 1 Milk or otherwise breach the Quality Standards, the following consequences will apply:
 - (i) Quality Deductions being applied (as applicable);
 - (ii) we may reject the relevant Milk (in which case we will provide written notice to you as soon as practicable of the rejection, including the reasons for the rejection and any consequences) and, subject to section 6.4, no payment being made for the relevant Milk and you being required to promptly and safely dispose of that Milk (where applicable);
 - (iii) any other consequences expressly provided for in the Quality Procedures;
 - (iv) a Quality Review may be conducted as described in section 6.6(b); and
 - (v) you may be required to comply with the Resupply Procedure; or
- (b) you fail to comply with the Bega Cheese On-Farm Quality Assurance Program, or you supply Poor Quality Milk, this may result in the suspension of this Agreement in accordance with sections 6.6(c) or 6.6(d).

6.4 **Dumping Policy**

On the first three occasions during a Financial Year where either:

- (a) you self-report that Milk to be supplied is in breach of the Quality Standards in accordance with section 6.2; or
- (b) Milk that is to be supplied is rejected by a grader or tanker driver on Farm, based on their reasonable opinion that the Milk is contaminated, soured or otherwise unfit for human consumption,

we will reject the Milk by providing written notice to you specifying the reasons for the rejection and any consequences, you will promptly and safely dispose of the Milk and we will pay for the Milk (based on an average of the Milk Solids in the previous three collections of Milk) at the Monthly Minimum Prices (including any Step-Ups) less a Quality Deduction in your monthly payment equal to:

- in the case of the first dump 10% of the Monthly Minimum Price (including any Step-Ups) for each kilogram of affected Milk Solids;
- (b) in the case of the second dump 30% of the Monthly Minimum Price (including any Step-Ups) for each kilogram of affected Milk Solids; and
- (c) in the case of the third dump 30% of the Monthly Minimum Price (including any Step-Ups) for each kilogram of affected Milk Solids.

On each subsequent occasion (after the third dump) during a Financial Year that section 6.4(a) or 6.4(b) applies, we will not pay for the Milk.

6.5 Notification of Breach of Quality Standards

We will report all results to you of breaches of the Quality Standards by the following means:

(a) Pay Statement – as part of your monthly
Pay Statement, we will provide you with
a written statement in relation to the
quantity and quality of your Milk
production for the previous month,
including a summary of your
performance in respect of certain

quality obligations under this Agreement;

- (b) SMS we will provide details (litres/butterfat/protein/BMCC/TPC/ Thermoduric) via SMS as soon as possible after each pick-up if requested by you, unless you tell us otherwise;
- (c) Web access you may access your volume information and quality results on the "Milkline" page as soon as they are available. Access to the web page is via the link on the Bega Home Page at https://milkline.begacheese.com.au A security password is required to access this site.

6.6 Quality Assurance Program

(a) Accreditation

You must obtain and maintain accreditation under the Bega Cheese On-Farm Quality Assurance Program:

- (i) if required by the applicable dairy authority, within three months of the Commencement Date if you did not supply milk to Bega Cheese Limited, Tatura Milk Industries Pty Ltd or BDD Australia Pty Ltd (formerly LD&D Australia Pty Ltd) immediately before the Commencement Date; and
- (ii) otherwise, every two years, or more frequently if required for compliance with State regulatory requirements,

and thereafter you must comply with the requirements of that program.

(b) Audits and reviews

You will permit performance based audits of your systems and facilities by an auditor approved and paid for by us, as deemed reasonably necessary by us in order to comply with regulatory requirements (QA System Audit).

You will permit performance based reviews of your systems and facilities by

us to periodically check your ongoing compliance with the Quality Standards or where you have failed to comply with a relevant Quality Standard (Quality Review).

(c) Suspension of Accreditation

Your accreditation under section 6.6(a) may be suspended if either:

- (i) any critical non-conformances are found during a QA System Audit or Quality Review. Critical non-conformances require the auditor to notify the relevant State Food Authority of the breach in food safety within 24 hours and the non-conformance must be cleared by a State Food Authority officer; or
- (ii) repeated major or minor nonconformances are not rectified by you as applicable, within such reasonable time for rectification as is provided by us to you.

The suspension will remain in place until the non-conformances have been rectified and confirmed by the State Food Authority auditor or our auditor (or both). Suspension of accreditation will also then result in the suspension of your supply of Milk to us.

(d) Suspension of Milk Supply

We may also suspend Milk collection from you in accordance with the Quality Procedures or if:

- (i) you supply Poor Quality Milk;
- (ii) you fail to comply with any remedial action reasonably required by us in accordance with the Quality Procedures;
- (iii) you commit a material breach of any of those matters set out in section 5.1, which is not rectified within such reasonable time for rectification as is notified by us to you; or

(iv) the Farm(s) otherwise pose an unacceptable and ongoing health, safety, environmental or quality risk that may affect the proper performance of this Agreement.

In order for us to withdraw the suspension, you will need to demonstrate to our reasonable satisfaction that the reason giving rise to the suspension has been rectified or otherwise appropriately addressed and comply with our Resupply Procedures.

6.7 **Testing of Milk**

Testing against the Quality Standards will be conducted by a NATA accredited testing facility. Sampling occurs at the collection location and is undertaken by us or our freight contractor in accordance with the Quality Standards. The accredited testing facility will test the sample as soon as reasonably practicable after collection. We will provide the test results to you as soon as reasonably practicable in accordance with section 6.5.

Any in-field testing performed by you or on your behalf is to be used as a guide only to assist you in any decision-making process regarding the supply of Milk to us. Unless there is a manifest error, the results of testing conducted by us, or on our behalf, will be used as the official test results in respect of any matter regarding Milk quality.

7. General

7.1 Termination

- (a) Either party may terminate this Agreement with immediate effect, if the other party commits a material breach of this Agreement and, if that material breach is capable of remedy, does not remedy the material breach within 30 days of being notified in writing by the terminating party to do so.
- (b) Without limitation, a party may commit a material breach if:
 - they enter into bankruptcy or liquidation or suffer an insolvency event;

- (ii) they are convicted of any offence where the penalty is imprisonment;
- (iii) they are guilty of fraud, dishonesty or any other serious misconduct in connection with this Agreement; or
- (iv) they commit a breach of their obligations under sections 5.1,
 7.5 or section 7.6 which has a serious effect on the benefit to which the other party would otherwise have under this Agreement.
- (c) If you wish to terminate this Agreement before the Expiry Date, you may terminate this Agreement with effect on any day during the period 1 July 2025 to 31 August 2025, provided you give us at least 30 days' prior written notice of any such termination.
- (d) If you have elected to supply Milk to us as a Non-Exclusive Supplier, you may also terminate this Agreement at any time without cause by providing written notice to us, effective 30 days after payment to us of any amounts you owe
- (e) In order to terminate this Agreement in accordance with this section, the terminating party must provide the other party with written notice of:
 - (i) the termination;
 - (ii) the reason for the termination; and
 - (iii) the day the termination takes effect.
- (f) If there is a Sharefarmer Supplier under this Agreement, both you and the Sharefarmer Supplier must exercise your rights under sections 7.1(a), 7.1(b), 7.1(c) and 7.1(d) acting jointly.

7.2 Changes to Farm Ownership or Herd

(a) You acknowledge that the benefit that we receive under this Agreement is the purchase of Milk produced on the Farm(s) and that we rely on that Milk in the operation of our business. You agree to act in good faith and use your best endeavours to maintain that supply of Milk and to not do anything that would undermine Bega receiving that benefit. Without limiting these obligations, you agree not to do any of things identified in section 7.2(b) (Farm Change Event) unless you have:

- given us at least 30 days' prior written notice of the proposed Farm Change Event; and
- (ii) paid us all amounts that you owe us under this Agreement.
- (b) A Farm Change Event will occur if you:
 - sell or transfer, or allow to be sold or transferred, any of your Farms, dairy land and assets (excluding the milking herd) to a third party (including to any company, person or entity related to you);
 - (ii) make any changes to your ownership structure, or to any lease agreement, share farming agreement or any other arrangement affecting the Farms' dairy land and/or assets; or
 - (iii) cease the production of Milk at the Farms.

7.3 Variations

- (a) This Agreement may only be unilaterally varied during the Term by us in the circumstances permitted by the Dairy Code and provided that variation is effected in accordance with the requirements of the Dairy Code. We will provide you with written notice of any such unilateral variation as soon as practicable after the variation and will include the details and reason for the variation, and the day the variation takes effect.
- (b) This Agreement may otherwise only be varied by both parties agreeing in writing to the variation.

7.4 Obligation to act in good faith

We each agree that we must deal with each other in good faith in relation to the supply of Milk. Without limitation, that duty of good faith applies in the circumstances specified in section 11(3) of the Dairy Code and, in determining whether either of us has acted in good faith, the matters identified in section 11(4) of the Dairy Code may be taken into account.

7.5 Conduct of the parties

The parties will not engage in behaviour that is, or may reasonably be considered to be intimidating, bullying, or harassing or commit any act or behaviour which is offensive or abusive in connection with this Agreement.

7.6 Foreign Corrupt Practices Act

The parties must comply with the U.S. Foreign Corrupt Practices Act (FCPA). We prohibit all forms of bribery and require all employees, agents, consultants, contractors, and other parties acting on our behalf to fully comply with any legal obligations.

7.7 Compliance with the Dairy Code

This Agreement implements the required terms of the Dairy Code and to the extent there is any inconsistency between the terms of this Agreement and the Dairy Code, then the Dairy Code prevails. If any part or whole of one or more provisions of this Agreement are noncompliant with the Dairy Code, then any part or whole of one or more of those provisions will be severed from this Agreement and the validity, existence, legality and enforceability of the remaining provisions of this Agreement will not be affected, prejudiced or impaired.

7.8 Compliance with the law

The parties must at all times comply with the law when carrying out their obligations in connection with this Agreement.

7.9 **Set off**

We may set off any amounts due to you under this Agreement against any amounts due by you to us under this Agreement. We may set off any amounts due to the Sharefarmer Supplier under this Agreement against any amounts due by the Sharefarmer Supplier to us under this Agreement.

7.10 Force Majeure

You are not required to perform your obligations in this Agreement during the time you may be prevented from doing so by force majeure events that are beyond your reasonable control such as floods, fires, or similar natural disasters. We are not required to perform our obligations in this Agreement during the time we may be prevented from doing so by force majeure events (such as damage to or destruction of our plant or manufacturing facilities) which are beyond our reasonable control (Force Majeure Events). In the event that we are prevented from collecting your Milk due to a Force Majeure Event, we may in our absolute discretion, make arrangements for you to be credited with the Milk in the vat and we will pay for that Milk at the applicable Monthly Minimum Price.

7.11 Use of Information and Privacy

We will use any personal information collected in the course of performance of this Agreement in accordance with the *Privacy Act 1988* (Cth) and the Bega Privacy Policy available at https://begagroup.com.au/privacy-policy/.

7.12 Assignment

Neither party may assign or transfer its rights under this Agreement without the prior written consent of the other party, such consent shall not be unreasonably withheld.

7.13 Confidentiality

All Confidential Information remains the property of and is confidential to the disclosing party. The receiving party must keep the Confidential Information confidential, must take all reasonable steps to keep secure all the Confidential Information coming into its possession or control, and must not memorise, use, modify, reverse engineer, reproduce or make copies or records of the Confidential Information for any purpose other than in connection with the performance by either party of its obligations under this Agreement. These confidentiality obligations will apply for three years after this Agreement is terminated or expires. Either party may disclose Confidential Information as may be required by

law or to their legal and other business advisers provided they comply with a similar obligation of confidence as set out in this section 7.13.

7.14 Disputes

- (a) If we on the one hand or you on the other (the complainant) have a complaint in relation to a matter arising under or in connection with this Agreement, the complainant must notify the other party (the respondent), in writing, of the following:
 - (i) the nature of the complaint;
 - (ii) that the complainant wishes the complaint to be dealt with in accordance with the complaint handling procedure provided in this Agreement; and
 - (iii) the outcome the complainant wants.
- (b) Bega's Complaint Handling Officer must manage the complaint in accordance with the procedure in this Agreement.
- (c) Within five working days after receiving notice of the complaint under section 7.14(a), the respondent must give a written acknowledgement to the complainant stating:
 - (i) that notice of the complaint has been received; and
 - (ii) the steps to be taken to deal with the complaint.
- (d) The complainant and the respondent must attempt to resolve the complaint in accordance with the complaint handling procedure provided in this Agreement before taking action to resolve the complaint by mediation or arbitration.
- (e) If the complaint is not resolved in accordance with the complaint handling procedure provided in this Agreement within 60 days after the acknowledgement was given to the complainant under section 7.14(c)(i):

- the complaint must be referred to mediation in accordance with the Dairy Code;
- (ii) if mediation does not resolve the complaint, the complainant and the respondent may agree that the complaint be resolved by arbitration in accordance with the Dairy Code.
- (f) The complainant may, at any time, withdraw the complaint by notice in writing to the respondent.
- (g) Despite the existence of a complaint or dispute, each party must continue to comply with its respective obligations under this Agreement.

7.15 Trustees

- (a) Unless you have told us that you are the trustee of a trust, you warrant that you are entering into this Agreement in your own capacity and not on behalf of any other person or as trustee of a trust.
- (b) If you have told us that you are entering into this Agreement as a trustee, you enter into this Agreement on your own behalf and on behalf of the trust and you warrant to us that you:
 - are either the sole trustee of the trust or if there are multiple trustees of the trust, all those trustees are listed as party to this Agreement;
 - (ii) have entered this Agreement for the trust's benefit and purpose and have arranged any required approvals for the trust's property to be bound to this Agreement;
 - (iii) have the power under the trust deed to enter into this Agreement, to fulfil your obligations under this Agreement, and to use the assets of the trust to pay any amount required in connection with this Agreement; and

- (iv) have an unrestricted right to be fully indemnified out of the assets of the trust.
- (c) The Supplier acknowledges and agrees that Bega is entering into this Agreement on the basis that each of the warranties in this section 7.15 is true and will remain true throughout the Term

7.16 No partnership

This Agreement is between us as principal and you as an independent supplier. This Agreement is not a legal partnership, joint venture, agency or employment arrangement.

7.17 Survival of terms of Agreement

Without limiting the sections which by their nature survive expiry or termination, sections 7.9, 7.11, 7.13, and 7.14 survive termination or expiry of this Agreement.

7.18 Entire Agreement

This Agreement supersedes all prior agreements, discussions, representations, negotiations and understandings and states all the terms of the Agreement between the parties in respect of its subject matter.

7.19 Governing law

This Agreement is subject to the laws and courts of the State or Territory in which your contracted Farms are located. If your Farms are situated across more than one State or Territory, the laws and courts of New South Wales shall apply.

8. Definitions

Agreement means this agreement including the appendices and attachments and the Bega Cheese On-Farm Quality Assurance Program.

Bactoscan is a measurement of the total number of bacteria present in milk, alive and/ or dead.

Bega means the Bega Cheese Group member that is the contracting party to this Agreement, as set out at the beginning of this Agreement, under the heading "Parties", and "we", "us" and "our" have corresponding meaning.

Bega Cheese Group means Bega Cheese Limited and its subsidiaries.

Bega Cheese On-Farm Quality Assurance Program means the program set out in the manual dated May 2022 provided by us to you at the same time as this Agreement is provided.

BMCC/SCC Geometric Mean means a 13 week geometric mean calculation of BMCC/SCC.

Business Day means a day that is not a Saturday, a Sunday or a public holiday or bank holiday in the State to be applied as the governing law of this Agreement under section 7.19.

Business Type means the type of legal entity that you have used to enter into this Agreement. Your legal entity will be one of the following that are identified by the Australian Taxation Office: Australian Proprietary Company, Discretionary Services Management, Discretionary Trading Trust, Fixed Unit Trust, State Government Entity, Discretionary Investment Trust, Family Partnership, Individual/Sole Trader, Other Partnership, or Deceased Estate.

Commencement Date means the date set out in **Item 2** of the Details.

Complaint Handling Officer means Bega Cheese Limited's Executive General Manager of Nutritionals and Ingredients.

Confidential Information means all information relating or belonging to a party to this Agreement, in any form, that should reasonably be considered as confidential to the party to whom it belongs or relates, and that is not generally available to the public at the time of disclosure other than as a result of a breach of this Agreement.

Dairy Code means the code to apply to the dairy industry introduced by the Australian Department of Agriculture and Water Resources with a commencement date of 1 January 2020.

Details means the section entitled 'Details' at the front of this Agreement.

Dumping Policy has the meaning given in section 6.4.

Exclusive Milk Payment System means the payment system described by that name in **Item** 4 of the Details and with the associated pricing set out in **Item** 6 of the Details.

Exclusive Supplier means a person that elects to supply Milk to us on an exclusive basis by selecting the "Exclusive Supply" option in **Item 4** of the Details.

Existing Supplier means an existing supplier to Bega with a milk supply agreement that expires on 31 August 2024.

Expiry Date means the expiry date set out in **Item 3** of the Details.

Farm(s) means the farm or farms located at the addresses specified in Item 1 of the Details from which you or (if applicable) the Sharefarmer must operate their dairy business.

Farm Change Event has the meaning given in section 7.2(b).

Fees for Services has the meaning given in section 2.6

Financial Year means a period commencing on 1 July and ending 12 months later.

Forecasted Volume has the meaning given in section 4.5.

Force Majeure Event means an event as defined in section 7.10.

Grade 1 Milk means Milk provided by you which meets the Specification.

Grade 2 Milk means Milk which has the TPC and BMCC/SCC parameters identified as such in the Quality Deductions Table.

Grade 3 Milk means Milk which has the TPC and BMCC/SCC parameters identified as such in the Quality Deductions Table.

Grade 4 Milk means Milk which has the TPC and BMCC/SCC parameters identified as such in the Quality Deductions Table.

Grade 5 Milk means Milk which has the TPC and BMCC/SCC parameters identified as such in the Quality Deductions Table.

Grade 6 Milk means Milk which has the TPC and BMCC/SCC parameters identified as such in the Quality Deductions Table.

Industry Fees has the meaning given in section 2.7

Milk means bovine milk supplied and accepted under this Agreement.

Milk Solids means butterfat and protein.

Minimum Collection Fees has the meaning given in **Item 10** of the Details.

Monthly Minimum Price is the minimum price payable for Milk by Bega pursuant to section 26 of the Dairy Industry Code (set out as a schedule of monthly minimum prices in Item 6 of the Details) consisting of a separately listed protein and butterfat price.

NATA means the National Association of Testing Authorities of Australia.

New Milk Baseline means the new milk baseline as defined in section 2.5.

New Milk Incentive means the incentive, the details for which are set out in section 2.5.

Non-Exclusive Supplier means a person that elects to supply Milk to us on a non-exclusive basis by selecting the "Non-Exclusive Supply" option in **Item 4** of the Details.

Non-Exclusive Milk Payment System means the payment system described by that name in Item 4 of the Details and with the associated pricing set out in Item 6 of the Details.

Pay Statement means the statement described in section 3.3.

Personal Use Milk means Milk that you produce that is used by you for personal consumption at the Farm(s) or to feed calves at the Farm(s).

Poor Quality Milk means Milk that fails to comply with the law, Food Safety Standards, or is Grade 6 Milk.

Prior Deemed Milk Supply has the meaning given in **Item 12** of the Details.

Productivity Incentive means the incentive, the details for which are set out in section 2.4.

QA System Audit has the meaning in section 6.6(b).

Quality Assessment Period means a ten day period during each month where Milk is assessed to determine if it meets the Quality Standards. There are three quality assessment periods per month. For non-30 day months, the final ten day period is adjusted (e.g. a 31 day month will have an 11 day period as the last quality assessment period for the month and a 28 day month will have an 8 day period as the last quality assessment period of the month).

Quality Deductions means the deductions that Bega will make from your monthly payments for breaches of the Specification or under the Dumping Policy.

Quality Deductions Table means the table forming Part 2A of Appendix A, which is to be interpreted in accordance with Part 1 of Appendix A.

Quality Procedures means the procedures in Part 3 of Appendix A which set out consequences for failing to comply with the Quality Standards.

Quality Review has the meaning given in section 6.6(b).

Quality Standards means the standards that apply to Milk to be supplied to Bega as set out in:

- (a) Part 2 of Appendix A, including the Quality Standards Table; and
- (b) the Specification.

Quality Standards Table means the table forming Part 2 of Appendix A, which is to be interpreted in accordance with Part 1 of Appendix A.

Relevant Percentage means the percentage of all monies payable by Bega under this Agreement to each of the Supplier and the Sharefarmer Supplier as set out in Item 5 of the Details.

Resupply Procedure means the resupply procedure set out in Part 4 of Appendix A referable to Sediment, BMCC, Bactoscan or Antibiotics/Inhibitory Substances.

Somatic Cell Count, or SCC or Bulk Milk Cell Count or BMCC means the concentration of white blood cells in the bulk milk and is quantified as cells/ml.

Special Conditions means the special conditions, if any, set out in Appendix B to this Agreement.

Specification means Milk supplied under this Agreement that has:

- (a) a Total Plate Count of less than 10,000 cfu/mL; and
- (b) Somatic Cell Count of less than 200,000 cells/ml.

Stop Fee means the fee Bega will charge you for picking up your Milk at the rate set out in Item 10 of the Details and in accordance with section 2.6.

Step-Up means an additional payment for the Milk you supply paid in accordance with section 2.9(a).

Step-Down means a reduction of the Monthly Minimum Prices payable for the Milk you supply in accordance with section 2.9(b).

Supplier means the person or entity (whatever the Business Type) supplying Milk to Bega under this Agreement, and, if applicable, including the Sharefarmer Supplier whose details are set out on the front page of this Agreement, and **you** and **your** have a corresponding meaning.

Term has the meaning given in section 1.5.

Thermoduric means total number of bacteria that have survived pasteurisation and have formed colonies.

Total Plate Count or TPC means the concentration of viable micro-organisms in a sample such as bacteria and is measured in cfu/ml (cfu = colony forming unit).

TPC Geometric Mean means an 8 week geometric mean calculation of TPC.

Transport Surcharge has the meaning given in **Item 10** of the Details.

APPENDIX A

Quality Standards and Quality Deductions

Part 1: Interpretation of Quality Standards Table and Quality Deductions Table

You are required to supply Grade 1 Milk to us during the Term, being Milk that complies with the Quality Standards.

The tables set out in Part 2 and Part 2A of this Appendix A should be read in the following way:

A) Quality Standards Table - Part 2

- (a) Milk supplied must meet each of the targets set out in column A of the Quality Standards Table.
- (b) Milk will be tested by us at the times set out in the Quality Standards Table in column D. For instance, temperature will be tested in relation to each consignment of Milk supplied.
- (c) If Milk does not comply with the Quality Standards, we may implement the consequences set out in the Quality Deductions Table, the Quality Procedures and section 6 of this Agreement.

B) Quality Deductions Table - Part 2A

If Milk does not comply with the Quality Standards in respect of BMCC/SCC or TPC and we accept the Milk, we will:

- (a) apply the applicable percentage deduction in the Quality Deductions Table to the Monthly Minimum Price (including any Step-Ups) depending on whether the Milk is Grade 2 Milk, Grade 3 Milk, Grade 4 Milk, Grade 5 Milk or Grade 6 Milk; and
- (b) implement any further consequences set out in the Quality Procedures or section 6 of this Agreement.

C) Quality Procedures – Part 3

The Quality Procedures set out the consequences of failing to comply with the control limits set out in the Quality Standards Table, including when we may reject or suspend your Milk collection in accordance with section 6 of this Agreement for breach of the Specification or other Quality Standards.

Part 2: Quality Standards Table

	TARGET	CONTROL LIMITS	TEST METHOD	MINIMUM TEST FREQUENCY				
MICROBIOLOGICAL								
Aerobic Plate Count (APC) or Total Plate Count (TPC)	bic Plate Count (APC) or Total Plate ont (TPC) AS 1766.2.1 or Petrifilm SM, or Bactoscan		AS 1766.2.1 or Petrifilm SM, or Bactoscan	Once every Quality Assessment Period				
Somatic Cell Count (SCC) or BMCC	<200,000 cells/mL	<400,000 cells/mL	IR method (Combifoss)	Every delivery				
Thermoduric bacteria	<2,000 cfu/mL	<5,000 cfu/mL	AS 5013.28	Testing may occur every month				
CHEMICAL								
			IR method (Combifoss)					
Protein (True)	3.25% m/v	min 3.0% m/v		Every delivery				
			IR method (Combifoss)					
Milk fat	3.8% m/v	min 3.2% m/v		Every delivery				
Antibiotics and Inhibitory Substances	Not detected	Not detected	Australian regulator approved testing methods for maximum residue limits by substance set out in the FSANZ Code	Every delivery				
PHYSICAL								
			Tanker digital thermometer – calibrated by AS method					
Temperature	1–4°C	1-5°C		Every delivery/Every vat				
			Titratable Acidity test method and or approved internal method					
Acidity	<0.12%	< 0.15%	(equivalent to AS 2300)	Every delivery				

С

В

D

Sensory and Appearance	White to cream in appearance, free from foreign matter, taints and coagulation	appearance, free from foreign matter, taints foreign matter, taints foreign matter, taints and foreign matter, taints foreign matter, taints foreign matter, taints and foreign matter from foreign matter, taints and foreign matter from foreign matter, taints foreign matter from from foreign matter from from foreign matter from from from from from from from fro		Every delivery/ Every vat
рН	>6.6	>6.6 and < 6.8	AS 2300.1.6-2010	As required
Foreign Matter (Sediment)	Disc 1	Disc 2 minimum	Sediment Lintine disc test or approved internal method (AS 2300, 1.7-1990)	As required
Freezing point	-0.512 °C	<-0.517 °C	Freezing point depression test – AS 2300.2.5	As required

Milk supplied must also meet the following control limits:

- Milk must be free of abnormal constituents, nonyl-phenol ethoxylates (NPE's), quaternary ammonium compounds (QACS), oestradiol, aflatoxins or novel proteins, Bovine Tuberculosis, Leptospirosis, Anthrax, Brucellosis and Bovine Spongiform Encephalitis (BSE); and
- Milk must comply with Food Standard Code 1.4.4 part 1.4 Contaminants and Residues.

You must also notify us of any suspected residue contamination with chemicals such as wash water or grazing paddocks under withhold.

Section 6.2 or section 6.3 of this Agreement may be applied for breach of the above control limits or for failure to give any such notice and the Resupply Procedure may be applied. Where required by law, Suppliers may also be reported to the relevant Food Authority in their State and subject to a risk assessment in consultation with that Food Authority.

Milk that has had water added to it is considered adulterated in an unacceptable manner. Repeated abnormal results may lead to rejection or suspension of collection of Milk from your Farm(s). Suspected Suppliers may be reported to the relevant Food Authority in their State.

Sampling of Milk will be undertaken by approved drip sampler or a dip sample at the point of collection. In the unlikely event that test results for a Milk sample are not received by us from the accredited testing facility for any reason or there is a manifest sampling error, we may apply an 'averaged' test result for the relevant Milk sample based on your test results for the three collections of your Milk prior to the date the relevant sample Milk was collected, and such averaged result of the Milk Solids taken to be supplied is rounded to 2 decimal places.

If we collect your Milk twice a day and test results for a Milk sample are not received by us from the accredited testing facility for one collection, we will rely on the prior three collections of your Milk taken at the same time of day. For example, for a missing a.m. collection, the previous three a.m. collections will be used to determine the averaged test result.

If there are any special circumstances that you consider may impact the appropriateness of using the averaged test result for a missed result, please notify our Field Services Team.

PART 2A – Quality Deductions Table

Quality Deduction Table by Milk Grade*								
				TPC (c	fu/mL)			
		<10,000	<10,000 10,001 to 15,001 to 20,001 to 30,001 to >50,000 15,000 20,000 30,000					
BMCC/SCC – (cells/mL)	<200,000	1	2	3	4	5	6	
	200,001 to 250,000	2	3	3	4	5	6	
	250,001 to 300,000	3	3	4	4	5	6	
	300,001 to 350,000	4	4	4	5	5	6	
	350,001 to 400,000	5	5	5	5	6	6	
	> 400,000	6	6	6	6	6	6	

^{*} The numbers identified in the above section of the Quality Deduction Table indicate the relevant grade number of the Milk supply within that TPC and BMCC/SCC range. For example, the number "2" in the table indicates that Milk within such range would be referred to as Grade 2 Milk, and the percentage adjustment for Quality Deduction for Grade 2 Milk in the below section of the table would be applied.

	Grade 1 Milk	Grade 2 Milk	Grade 3 Milk	Grade 4 Milk	Grade 5 Milk	Grade 6 Milk
% Adjustment for Quality Deduction**	0%	-1.5%	-4.5%	-6.5%	-15%	-30%

Part 3: Procedures For Failure to Meet Specification or other Quality Standards

The Quality Standards Table sets out the relevant control limits for each of the Quality Standards. This Part 3 sets out how the control limits are applied for BMCC/SCC and TPC and for other Quality Standards and the consequences of failing to comply with those control limits (including when we may reject or suspend your Milk collection in accordance with section 6 of this Agreement for breach of the Specification or other Quality Standards).

1. BMCC/SCC

- We may suspend collection of your Milk under this Agreement where:
 - the BMCC/ SCC result in respect of one or more deliveries of Milk in a Quality Assessment Period is greater than 600,000 cells/mL and this occurs for more than two consecutive Quality Assessment Periods. In this case, we may suspend supply from your Farm with 48 hours' notice;
 - the BMCC/SCC result in respect of one or more deliveries of Milk in a Quality Assessment Period is greater than 400,000 cells/mL and this occurs for five or more consecutive Quality Assessment Periods; or
 - the BMCC/SCC Geometric Mean is greater than or equal to 400,000 cells/mL.
- We will notify you prior to commencing any period of suspension.
- If collection of Milk is suspended, the Resupply Procedure will apply.

2. TPC

- We may suspend collection of your Milk under this Agreement where:
 - the TPC result is greater than 100,000 cfu/mL (Bactoscan 464,000 IBC/ml) for more than two consecutive Quality Assessment Periods. In this case, we may suspend supply from your Farm with 48 hours' notice;
 - the TPC result is above 50,000 cfu/mL for five or more consecutive Quality Assessment Periods; or
 - the TPC Geometric Mean is greater than or equal to 100,000 cfu/mL.
- We will notify you prior to commencing any period of suspension.
- If collection of Milk is suspended, the Resupply Procedure will apply.

3. Thermoduric Bacteria

• If a result over 2,000 cfu/mL occurs, a sample from your following consignment of Milk will be tested (a retest) to confirm the original result. If your test results are equal to or exceed 5,000 cfu/mL you will be contacted directly by a Bega representative to determine appropriate remedial action to resolve the issue. If results are 5,000 cfu/mL or above, daily testing is required until the results are below 5,000 cfu/mL. The test turnaround time is 3 days.

- Suspension under section 6.6(d) of this Agreement may also be applied for a breach of this Quality Standard in the event of persistent failures to meet the control limit over six consecutive Quality Assessment Periods.
- We will notify you prior to commencing any period of suspension.
- If collection of Milk is suspended, the Resupply Procedure will apply.

4. Milk Solids (Fat and Protein %)

- Suppliers whose Milk falls below the control limits for protein and milk fat set out in the Quality Standards Table (calculated based on a weighted average over a Quality Assessment Period) will be contacted directly by a Bega representative advising the Supplier that their Milk quality is below the control limits. A Supplier will then be asked to demonstrate what management changes they are implementing to rectify the low results and undertake remedial action. If the Supplier's milk continues to not meet the control limits during the next two Quality Assessment Periods following that warning, we may suspend collection of Milk from that Supplier until the Supplier can demonstrate to our reasonable satisfaction that the control limits will be met.
- Section 6.2 or section 6.3 of this Agreement may also be applied for a breach of the control limit for this Quality Standard.
- We will notify you prior to commencing any period of suspension. If collection of Milk is suspended, the Resupply Procedure will apply.

5. Antibiotics, inhibitory substances and contaminants

- We may suspend collection of your Milk under of this Agreement where: the Supplier has not self-reported an issue of contamination, and has supplied Milk that tests positive to antibiotics or other contaminants (including pesticides, herbicides, feed and biological taints, added water, foreign material, detergents (especially quaternary ammonium compounds), blood and colostrum) in which case:
 - the Milk will be rejected by us;
 - a Quality Deduction will be charged that is the equal to the lesser of Bega's
 actual loss and the Grade 4 Milk rate being applied to all Milk supplied in
 the Quality Assessment Period in which the milk was rejected. There will be
 no payment for rejected antibiotic/contaminated Milk that has entered a
 tanker;
 - a Quality Review will be undertaken;
 - results will be reported to the relevant Food Safety Regulator, where applicable;
 - the relevant Resupply Procedure will apply;
- We will notify you prior to commencing any period of suspension.

If collection of Milk is suspended, the Resupply Procedure will apply.

6. Temperature, Acidity, Sensory, pH, Sediment, Freezing Point

- In the event that the control limits set out in the Quality Standards Table are not met for Temperature, Acidity, Sensory, pH, Sediment, Freezing Point parameters, you will be contacted directly by a Bega representative to discuss remedial action to resolve the issue in the first instance.
- If sufficient remedial action has not been implemented within an agreed timeframe, we may act under section 6.6(d), 6.2 or 6.3 of this Agreement, as applicable, which may include suspension of collection or rejection of Milk.
- We will notify you prior to commencing any period of suspension.
- If collection of Milk is suspended, the Resupply Procedure will apply.

Part 4: Resupply Procedure

The aim of this procedure is to provide a re-supply path for Suppliers who have been suspended from supplying Bega due to Milk breaching the Quality Standards or the Supplier supplying Poor Quality Milk or breaching this Agreement in a manner that meant Milk supply was suspended.

1. BMCC/SCC

- The Supplier must demonstrate they have taken corrective action to address the issue before resupply can commence.
- The Supplier can dry off the whole herd for a minimum of four consecutive weeks and recommence supply after this time. Previous history will not be used in calculating the 13 week geometric mean or for other Quality Deductions.
- If you wish to recommence supply earlier than the minimum four weeks' then you
 must provide four consecutive milking samples to Bega that meet the BMCC/SCC
 parameters for Grade 1 Milk.
- BMCC/SCC results for Milk collected for the next seven days must, at a minimum, meet the BMCC/SCC parameters for Grade 5 Milk set out in the Quality Deductions Table. If the results are above this, then collections will again cease immediately for a period of seven days and you must commence the Resupply Procedure again.

2. TPC

• The Supplier must demonstrate they have taken corrective action to address the issue before resupply can commence.

3. Antibiotics/Inhibitory Substances/ Contaminants

- A sample of the next milking must test negative for antibiotics/inhibitory substances to enable resupply. Collections will not recommence until Milk has tested negative.
- Samples must be presented to a testing company approved by Bega.
- Note seasonal calving herds should present a sample for testing prior to recommencing supply. Sample must test negative for antibiotics/inhibitory substances/ contaminants before collections will recommence.

4. Generally

 Resupply in any of case of suspension will commence at the next convenient time for the tanker collection. No more than four milkings will be collected and, at a minimum, the Quality Standards must be met.

APPENDIX B FORECASTED VOLUMES (By Farm)

Month			Forecast Volume 2024/25	Actual Volume 2024/25
